Gradu8: EMPOWERS is an experiential training program that's a unique blend of old-school wisdom, new-age concepts and hands-on learning that aims to provide fresh hires with the right mindsets and competencies that will have them prepared for the workplaces of today and tomorrow

THE TOPICS

ELOQUENCE

Effective communication is what separates great teams from average ones. Your fresh hires may have been top of their class but if they aren't able to communicate eloquently in the workplace, none of that matters

MINDFULNESS

EQ plays an important role in our daily lives (even if we don't realize it!). We're going to show your employees how to harness their emotions, thoughts, capitalize on the strengths & weaknesses and work consistently even under pressure

PASSION

Why should your company suffer because your employees don't 'love' what they do? We're going to show your employees how to get their priorities in order, how to 'work smart, not hard' & ignite their passion for their job

ORIGINALITY

Everyone wants to fit in; but if your employees want to get noticed, they have to do something that helps them stand out from the crowd. We're going to show them how to tap into their creative sides and achieve more just by being themselves

WILLINGNESS

One of the main factors that determines whether someone fails or succeeds in life is their willingness to adapt. Just like the dinosaurs, if your employees aren't able to adapt or are unwilling to change, your organization will suffer

ENGAGEMENT

Your employees are your company's greatest assets; they're the key to your company's success. It's not just about having people; it's about having the right people. We're going to show you how to utilize their skills, reach their full potential and consistently motivate & engage them at work

RESOURCEFULNESS

There will always be constraints in terms of time & resources but how your employees react to this determines whether your company succeeds or fails. We're going to provide your employees with the right tools and mindsets needed to take on challenges and new initiatives confidently

SUAVE

First impressions are important. That's why employees have to learn the importance of being the best version of themselves as well as being able to market themselves. We're going to help them polish up their professional image and present the best possible version of themselves at all times
